Adjoining the meeting with these people in John Whergar Town, and after the completion of the surveys, we found out that:

1. The area of interest covered 2900 acres or 1160 hectares of land.  
2. The land is a deeded land and is owned by the people we met. They have been living in the area peacefully for the past over hundred(100) years plus.  
3. All citizens and elders of the area warmly welcome the operation of Bassa Logging Company in their area.
The deed given us had technical errors that needed correction to suit the layout of the area shown us.

NEW DESCRIPTION OF THE DEED - 1

Dear Surveyor Blaye:

You are hereby directed to carry out investigation on the attached deeds emanating from Grand Bassa County and to submit a comprehensive report with site plan of the area under study. Please conduct social vetting as well (local government leaders, youth leaders participation during the vetting). The technical vetting calls for the measuring of not more than five (5) lines. Please take GPS reading on tie points. Do verify survey that was done in surrounding areas.

Kind regards.

Very truly yours,

Hon. Roosevelt G. Jayjay
Acting Minister
Ministry of Lands, Mines & Energy
Capitol Hill
Monrovia, Liberia

Dear Hon. Jayjay:

We are pleased to forward the attached Land deeds from Doun Section, District # 3C, Grand Bassa County for your review and verification.

As you are aware, Hon. Minister, forests are a source of subsistence, economic activity and cultural identity for rural Liberians who represent a large section of Liberian society. However, the legal rights and responsibilities of these rural communities to the forests and their related resources they traditionally depend upon are unclear, and have never been legally established or defended.

Communities have historically managed forests in Liberia, but for decades rural Liberians have been excluded from decision-making; however, the policies, laws and regulations regarding community control of natural resources have been developed by the present Administration, taking into account the significant role our rural dwellers play in managing our natural resources.

Hon. Minister, your review and verification of this document is necessary to facilitate the granting of a Private Use Permit (PUP) by the Forestry Development Authority to the people of District # 3C, Grand Bassa County:

Thank you in advance for your continued understanding and cooperation as we strive to sustainably manage and protect the remaining tropical forest in West Africa.

Please see attached Deed.

Sincerely yours,

Subject: Validation Report of Dor-zohn Deeded Land Property in Grand Bassa County

DATE: October 24, 2011

Background

Predicated on a communication under the signature of Mr. Mydeh Kpogba, Legal Administrator, Dor-zohn Deeded Property, District #3A, requesting the Forestry Development Authority to authenticate, verify and issue Private Use Permit (PUP) for Deeded Land areas situated and lying in Dor-zohn, District # 3A, Grand Bassa County. A team of technicians from the FDA was mandated to visit Dor-zohn property for detail ground truthing, capturing of Tribal Land marks and sight seeing of the area for management’s reaction.

In light of the above, two surveyors and three Global Positioning System (GPS) operators, traveled to the land under consideration to conduct a joint ground truthing exercise of the area along with the tribal people and company representative.

Field Patrol

During the period June 20-27, the joint team patrolled a significant portion of the area and gathered detail information relating to on going multiple uses of the area, types of vegetation, topology, and livelihood of communities dwellers within the parameters of the forest.
Findings

Following an intensive tour by the technicians, we observed and authenticated that:

- Indeed the Deeded Land areas does not overlapped with any of FDA allocated areas (FMC’s, TSC’s, PA’s, and PPA’s);
- Greater portion of the area is suitable for harvesting (commercial logging);
- Topographically, the entire land mass of Deeded land areas submitted to FDA is relatively flat with few water ways;
- The area is truly located in District # 3A, Grand Bassa County;
- The size of the area requested by the citizens of Dor-zihn, District # 3A for harvesting is equivalent to the actual area (area plotted is 2,935 acres/1,188 hectares);
- The commencement or starting point of Dor-zihn Deeded Land property is Northing 0404917 and Eastern 0652112 (Universal Traverse Mercator) on the surface of the earth.

Recommendation

In view of the verification and confirmation of these documents by the Forestry Development Authority, coupled with our ground truthing (June 20-27, 2011), we herein recommend that:

- That the deeds be forward to the Ministry of Lands, Mines & Survey, especially the Minister of Lands, Mines and Energy for authentication. After authenticating the deed and found legitimate, the FDA should perform the below activities;
- The area of Dor-zohn, District # 3A total area be given with a new Metes and Bounds re-written on behalf of the people of Dor-zohn, District # 3A- Grand Bassa County;
- As per National Forestry Reform Law (NFRL) of 2006 provision in chapter five section 5.6, we therefore recommend that FDA Management issue a Private Use Permit for Land totaling 2,935 acres/1,188 hectares to the people of District # 3A in compliance with all relevant requirements of this section (particularly section 5.6 c (i, ii, iii) and d (i, ii, iii, iv, v, vi) respectively.
